Signature: *Craig Kennedy*

Subject: Status of Ponds at Abandonment

SUMMARY OF TELECON

I contacted Mr. Kennedy regarding the status of the process area ponds (pregnant, barren, rinse pond 1, and rinse pond 2) as well as the reusable leach pad ponds (pregnant, barren, and rise) at the time when the Barite Hill facility was abandoned. Mr. Kennedy provided the following information:

- All of the ponds (process area ponds and reusable leach pad ponds) contained liquid at the time of abandonment; however, the exact amount of liquid in the ponds is not known.
- Prior to abandonment, personnel at the Barite Hill facility neutralized all ponds with hydrogen peroxide to reduce the concentration of cyanide in the ponds.
